

National Park Service, Interior

§ 13.182

§ 13.164 Permit terms.

The Superintendent shall, among other conditions, establish terms of a permit that:

(a) Allow for use and occupancy during the harvest or gathering of subsistence resources, at such times as may be reasonably necessary to prepare for a harvest season (*e.g.*, opening or closing a cabin or structure at the beginning or end of a period of use), and at other times reasonably necessary to accommodate the permittee's specified subsistence uses;

(b) Prohibit residential use in conjunction with subsistence activities; and

(c) Limit the term of a permit to a period of five years or less.

§ 13.166 Temporary facilities.

A temporary facility or structure directly and necessarily related to the taking of subsistence resources may be constructed and used by a qualified subsistence user without a permit so long as such use is for less than thirty days and the site is returned to a natural condition. The Superintendent may establish conditions and standards governing the use or construction of these temporary structures and facilities which shall be published annually in accordance with § 1.7 of this chapter.

§ 13.168 Shared use.

In any permit authorizing the construction of a cabin or other structure necessary to reasonably accommodate authorized subsistence uses, the Superintendent shall provide for shared use of the facility by the permittee and other local rural residents rather than for exclusive use by the permittee.

PUBLIC USE CABINS

§ 13.170 General public use cabins.

The Superintendent may designate a cabin or other structure located outside of designated wilderness areas and not otherwise under permit under this subpart (or under permit for only a portion of the year) as a public use cabin. Such designated public use cabins are intended for short term recreational use and occupancy only.

§ 13.172 Management of public use cabins.

The Superintendent may establish conditions and develop an allocation system in order to manage the use of designated public use cabins. The Superintendent shall mark all public use cabins with a sign and shall maintain a map showing their locations.

§ 13.176 Cabins in wilderness areas.

The use and occupancy of a cabin or other structure located in a designated wilderness area are subject to the other applicable provisions of this subpart, and the following conditions:

(a) A previously existing public use cabin located within wilderness designated by ANILCA may be allowed to remain and may be maintained or replaced subject to such restrictions as the Superintendent finds necessary to preserve the wilderness character of the area. As used in this section, the term "previously existing public use cabin" means a cabin or other structure which, on November 30, 1978, was recognized and managed by a Federal land managing agency as a structure available for general public use.

(b) Within a wilderness area designated by ANILCA, a new public use cabin or shelter may be constructed, maintained and used only if necessary for the protection of the public health and safety.

(c) A cabin or other structure located in a designated wilderness area may not be designated, assigned or used for commercial purposes, except that designated public use cabins may be used in conjunction with commercial guided visitor services, but not to the exclusion of the general public.

USE OF TEMPORARY FACILITIES RELATED TO TAKING FISH AND WILDLIFE

§ 13.182 Temporary facilities.

In a national preserve where the taking of fish and wildlife is permitted, the construction, maintenance or use of a temporary campsite, tent platform, shelter or other temporary facility or equipment directly and necessarily related to such activities is prohibited except pursuant to the terms of a permit issued by the Superintendent. This requirement applies
